

Contents of The Marine Review, Calendar Year, 1920

INDEX TO VOLUME L

A

A A-1, description of submarine	July	413
Accident statement for years 1909-1919 on Great Lakes	March	166
Admiral Anchor Co., description of large anchor made by the	Aug.	480
Admiral Anchor Co., description of stockless anchor developed by the	Jan.	47
African route, description of steamer Arundel Castle designed for	Jan.	22
A G W L, plans of, to enter oil trade	Jan.	2
Agawam, excellent towing performance of the	Jan.	36
Alaska Shipbuilding Co., contract for vessels awarded to the, by South American companies	Aug.	452
Alarm bell, description of wireless, developed by the Marconi Wireless Telegraph Co.	April	243
Alaska Steamship Co., description of steel motorship built for the	Nov.	606
Alta Havside originally designed as steamship, description of barkentine	May	271
Allen mariners, statistics on immigration of, in 1919	March	153
Allen, G B—Weak Points of Present Day Condensers	Nov.	614
Allen maritime commission, action taken by, with reference to German ships	Jan.	6
American Boiler Manufacturers' association, plans for annual meeting of the	June	350
American bureau of shipping, plans for classification of all United States ships in the	June	343
American bureau of shipping, plans of, for revising classification rules of propellers and engines	July	424
American bureau of shipping, probable legalization of	Jan.	26
American Clay Machinery Co., affiliation of, with Sir Robert Hadfield	May	272
American Clay Machinery Co., steering engine developed by, description of	May	302
American Navigator Log Corp., description of ships' log designed by	April	243
American sailors in merchant marine, percentage of	Oct.	532
American Shipbuilding Co., launching of the Merton E. Farr built by the	Oct.	547
American Shipbuilding Co., proposed sale of vessels by the, to foreign registry	Nov.	607
American Society of Marine Draftsmen, report of annual meeting of	Aug.	442
American Steamship Owners' association, description of activities of	July	371
American Steel Cleaning Co., description of sand blast device designed by the	Feb.	126
Anacortes Shipbuilding Co., sale of wooden hulls by the	July	391
Anchor developed by Admiral Anchor Co., description of large	Aug.	480
Anchor developed by Admiral Anchor Co., description of stockless	Jan.	47
Anderson Bros. Mfg. Co., pneumatic scraper developed by, description of	May	300
Ansaldo San Giorgio I, description of motorship	Dec.	663
Antwerp, plans of Belgian government for extension of port of	July	385
Antwerp, statistics showing progress of port of	April	214
Apprentices, plans of American shipbuilders to restore methods for technical training of	April	203
Aquitania, analysis of changes made in converting the, to a fuel oil burner	Sept.	488
Aquitania, conversion of the, to an oil burner	Aug.	452
Aquitania, new Atlantic record set by the	Sept.	484
Arc welder designed by the General Electric Co., description of	April	247
Argentine, laws governing marine insurance companies in	Jan.	22
Argonne, description of the	July	401
Armagh, record trip of the	March	153
Armstrong, Whitworth & Co., Ltd., increase in profits of the	Sept.	496
Army supply base at Boston, description of	March	133
Army supply base at Charleston, description of	July	409
Army supply base at Norfolk, description of	May	291
Army supply base at Philadelphia, description of	June	347
Army supply base at Port Newark, description of	April	227
Arundel Castle, description of the, designed for South African trade	Jan.	22
Asie, William—Laying Out Cant Frames	Dec.	668
Association of American Steel Manufacturers, revision of steel weights by the	Nov.	616
Atlantic Fruit Co., lease taken on Brooklyn pier by the	Oct.	566
Atlantic Salvage Co., how the, pulled ship off sand	Aug.	480
Automatic ship's log, description of	May	301
Axuary schooner, some advantages of an	Sept.	511
Average stay in port made by vessels of Pittsburgh Steamship Co. in 1919	Feb.	97
Aylward, J. J., description of automatic whistle operating device designed by	Jan.	46

B

"Back and fill" method, how to determine course of ship by	Aug.	467
Balancing machine, dynamic, description of	Jan.	44
Baltimore-Oceanic Steamship Co., formation of for direct service with Italian ports	June	316
Barge service on Mississippi, expansion plans of Government for	Aug.	441
Barentine, description of Ferris type wood hull rigged as	May	271
Barkentine Reine Marie Stewart, description of wooden	Feb.	75
Barnes Drill Co., description of heavy duty gang drill made by	April	248
Beach, Maj. Gen. Lansing H., description of exact conditions of southern inland waterways made by	Nov.	604
Beardmore, Messrs. Wm., & Co., Ltd., description of Cameronia built by	March	149
Belgium, plans of, to increase her merchant fleet	Feb.	86
Belgium, re-establishment of lightships by	April	214
Bel, description of wireless alarm, developed by the Marconi Wireless Telegraph Co.	April	243
Bell signal stations, list of submarine, planned for Great Lakes	June	357
Bending machine, plate, built by the Dreis & Krump Mfg. Co., description of	Dec.	672
Bending roll made by Southwark Foundry & Machine Co., description of	July	426
Bending rolls, built by Kling Bros. Engineering Works, description of plate	Aug.	480

Ben-my-chree, salvaging of the steamer	Nov.	596
Benson, Admiral W. S., nomination of, as head of shipping board	April	230
Bethlehem-Chile iron mines, description of new iron ore dock of	Jan.	22
Bethlehem Shipbuilding Corp., description of the tanker China Arrow built by the	Dec.	653
Bethlehem Shipbuilding Corp., description of floating dry dock bought by Union plant of the	Dec.	653
Bethlehem Shipbuilding Corp., discussion of American design of diesel engine built by the	Oct.	572
Bethlehem Shipbuilding Corp., list of oil carriers being built by the	Dec.	653
Bethlehem Steel Bridge Corp., description of large caisson used for closing Boston drydock built by the	Oct.	572
Betts Machine Co., description of continuous milling machine for heavy work built by the	Oct.	573
Bibby liner Yorkshire built by Harland & Wolff, Ltd., description of	Nov.	595
Bismarck, proposed sale of former German vessel	Nov.	596
Boiler feed pump designed by the Union Steam Pump Co., description of self-contained	Jan.	45
Boiler head, description of world's largest, made at plant of Lukens Steel Co.	Sept.	524
Boiler, Ludlum-type water tube, installed at Annapolis naval station, description of	Dec.	672
Boiler tests made by bureau of mines, results of	April	249
Bonuses, American steamship companies give, as Christmas presents	Feb.	50
Bonuses, passage of measure in Louisiana to prevent payment of purchase	Oct.	566
Boring machine developed by Milwaukee Electric Crane & Mfg. Co., description of	April	245
Boston harbor drydock, description of, built by the Halbrook, Cabot & Rollins Corp.	Oct.	571
Boston port traffic, for June	Aug.	460
Boston port traffic for July	Sept.	500
Boston port traffic for August	Oct.	532
Boston port traffic for September	Nov.	598
Boston port traffic for October	Dec.	658
Boston terminal built by war department, description of	March	133
Brake for overhead traveling cranes, description of safety	March	188
Brandis & Sons, Inc., description of navigational sextant made by the	Feb.	127
Brave Coeur, how propeller of the steamer, was repaired through cofferdam	May	298
Brest, series of facts and statistics showing the advantages of, as transatlantic terminal	Nov.	595
British cargo handling methods, description of	July	422
British cargo handling methods, description of	Aug.	477
British maritime centers, short surveys of important activities in	July	400
British maritime centers, short surveys of important activities in	Aug.	453
British maritime centers, short surveys of important activities in	Sept.	509
British maritime centers, short surveys of important activities in	Oct.	548
British maritime centers, short surveys of important activities in	Nov.	596
British ministry of shipping, sale of ships owned by the	Sept.	510
British salvage organizations, description of	July	393
British shipbuilders, explanation of crisis faced by	Aug.	451
British shipbuilding centers, description of salient characteristics of the nine leading	Aug.	434
British shipping, analysis of first quarter's operations in	June	332
British shipping interests, effect of rate decreases on	Aug.	590
British shipping interests, how, are facing radical changes brought about by the war	Aug.	448
British shipping securities in first quarter, quotations on representative	June	333
British ships, reconditioning of	Feb.	65
British shipyard, extension plans for	Feb.	101
Bronze propeller blades, description of large, designed by Columbus Bronze Corp.	Jan.	45
Brooklyn pier, lease taken by the Atlantic Fruit Co. on the	Oct.	566
Broxton, description of record size wooden carrier	Oct.	538
Bruce Dry Dock Co., description of drydock being built at Pensacola by the	Feb.	90
Brussels, sale of the famous ship	Oct.	548
Buffalo grain receipts in 1919	Feb.	96
Bulk freight movement on Great Lakes in 1919	Feb.	Chart
Bulk freighter fleet, size of Great Lakes, 1905-1920	Feb.	97
Bulkhead subdivision of lake vessels, plans for study of	Oct.	539
Bulkhead subdivision of lake vessels, preparation of data on	Dec.	633
Bunker economy, how the schooner Bessie A. White effects, by using producer gas as fuel	Nov.	617
Bureau of shipping, American, probable legalization of	Jan.	26
Bureau of standards, radio fog signal system, plans of, to establish	Jan.	17
Busch-Sulzer Bros. Diesel Engine Co., description of 2-cycle engine built by the	Dec.	641

BOOK REVIEWS

Americanism versus Bolshevism, by Ole Hanson	May	272
Applied Naval Architecture, by W. J. Lovett	Dec.	655
Applied Science for Metal Workers, by W. H. Dooley	April	231
Building the Emergency Fleet, by W. C. Mattox	Dec.	654
Diesel Engine Design, by H. F. P. Purday	Dec.	655
Graphic Production Control, by C. E. Knoepfel	Aug.	481
Handbook of Admiralty Law, by Robert M. Hughes	Dec.	655
Latitude and Longitude, by W. J. Millar	July	380
Lloyd's Register of American Yachts, published by Lloyd's Register of Shipping	Oct.	566
Marc St. Hilaire Method for Finding a Ship's Position at Sea, by Capt. F. E. Uttmark	April	231
Marine Engineers' Handbook, edited by Frank Ward Sterling	Dec.	654
Marine Gas Engines, by Carl H. Clark	July	408
Marine Insurance, by William D. Winter	July	410
Model Making, by Raymond Francis Yates	May	264
Naval Architect's, Shipbuilder's and Marine Engineer's Pocket-book, by Clement Mackrow and Lloyd Woollard	July	380
Notes on the Stowage of Ships, by Chas. H. Hillcoat	April	231
Ships' Boats, by Ernest W. Blockidge	July	410
Simple Rules and Problems in Navigation, by Charles H. Cugle	July	445
Submarines and Sea Power, by Charles Domville-Fife	May	262

C

Caisson used for closing entrance of Boston drydock, description of large	Oct.	572
Calculating tonnage, rules for	Sept.	520
Canamonia, description of the	March	149
Camel, Laird & Co., Ltd., description of the liner Oropesa built by the	Nov.	594
Canada, establishment of new steamship routes by	Aug.	451
Canadian Car & Foundry Co., description of the E. D. Kingsley built by the	April	209
Canadian shipbuilding industry, development of	July	402
Canadian shipyards, request of government aid for	Aug.	444
Canal freight, description of cranes for handling, built by Manning, Maxwell and Moore, Inc.	Dec.	667
Cape Cod canal, how the want of an owner closed the	April	218
Canal, industrial, plans of New Orleans board of commissioners to ask government to take over the	Oct.	545
Cant frame bevels devised at Newport News shipyard, description of method of obtaining	Dec.	668
Cape Fear, sinking of concrete ship, as result of collision	Dec.	668
Capized ship, description of ingenious method used to right	Aug.	470
Car floats, how concrete, met stability tests	Feb.	89
Cargo handling methods of British ports, description of	July	422
Cargo handling methods of British ports, description of	Aug.	477
Cargo insurance clauses, changes made in	Feb.	102
Cargo, lumber, resumption of prewar custom of fixing insurance on	Jan.	17
Cesare, Giulio, description of Italian liner	July	403
Chadburn (Ship) Telegraph Co. of America, Inc., description of ships' observation screen developed by	Jan.	44
Chamber of Shipping of the United Kingdom, report of banquet of	July	405
Chambers, Capt. F. T., analysis made by, of cargo handling methods of British ports	July	422
Chambers, Capt. F. T., analysis made by, of cargo handling methods of British ports	Aug.	477
Channel sweeper locates obstructions, how	April	243
Chargeurs Reunis, remarkable earning record of the firm of	July	405
Charleston army supply base, description of	July	409
Charter market, review of world	Jan.	2
Charter market, review of world	Feb.	50
Charter market, review of world	March	130
Charter market, review of world	April	194
Charter market, review of world	May	252
Charter market, review of world	June	306
Charter market, review of world	July	362
Charter market, review of world	Aug.	430
Charter market, review of world	Sept.	484
Charter market, review of world	Oct.	532
Charter market, review of world	Nov.	578
Charter market, review of world	Dec.	634
Cherbourg, discussion of the commercial possibilities of	March	153
Chicago marine show, list of exhibitors at the	Nov.	589
Chicago marine show, plans for the	Oct.	561
Chicago marine show, report of	Dec.	639
Chickasaw Shipbuilding Co., description of new plant of the	Feb.	120
China Arrow, description of tank steamer	Dec.	653
Chronometer, how to determine longitude by the	July	390
City of Atlanta, collision of the steamers Cape Fear and	Dec.	668
Claims of foreign shipowners against United States for material requisitioned during war	March	130
Clarkburg, first ship built for private account since armistice, description of the steamer	March	140
Clipper model, description of excellent	July	427
Clipper ships, description of some famous	July	381
Clyde shipyards, effect of dispute between platers and help on Oct.	Oct.	548
Clyde shipyards, increased severity of dispute between platers and helpers at the	Nov.	596
Coal and iron ore on the Great Lakes, contract freight rates for, 1911-1919	Feb.	95
Coal movement on the Great Lakes, 1905-1919	Feb.	95
Coal tonnage on Monongahela River, volume of	March	156
Coaling stations of the world, map showing principal	July Supplement	
Coast service, description of the steel vessel E. D. Kingsley built for	April	209
Coastwise law, plans of senate to re-establish	Feb.	91
Coastwise rates, increase in	Oct.	541
Cofferdam, how a propeller was repaired through, without docking ship	May	298
College of Overseas Commerce, course of instruction in trading with foreign markets offered by	April	218
Colonies, influence of, on maritime commerce of France	July	397
Columbian Bronze Corp., description of standardized motorship propellers manufactured by	Jan.	45
Compass, origin of the	Dec.	671
Compass variation, method of determining	Aug.	469
Concrete car floats, how, met stability tests	Feb.	89
Concrete ship Cape Fear, sinking of, as result of collision	Dec.	668
Condenser, description of leakproof, developed by the Wheeler Condenser & Engineering Co.	March	190
Condensers, discussion of weak points of present day	Nov.	614
Cones of sheet metal, description of quick method of forming holes in	March	187
Connecticut harbors, plans for improving the	March	147
Consolidation of steamship lines with shipbuilders	May	268
Contracts, cancellation of tonnage, in Norway	March	149
Cory, Chas. & Son, Inc., description of governor for preventing racing of engine built by	Nov.	618
Costs, data on ship operating	Jan.	14
Crandall Engineering Co., description of drydock built by the, employing the longitudinal truss method of construction	Dec.	669
Crane, description of floating, about to be purchased in Liverpool	Feb.	102
Crane, description of world's largest, installed at League Island	Feb.	123
Crane, description of safety brake for overhead traveling	March	188
Crane, how the government tested the Boston army base	March	185
Crane, installed at the New York State barge canal terminal, description of	Dec.	667
Cranksaft milling machine developed by the Newton Machine Tool Works, Inc., description of	May	300
Crawford Tool & Mfg. Co., description of dynamic balancing machine developed by the	Jan.	44
Crescent plant, reported merger of, with Messageries-Maritimes	May	275
Cristobal, description of rebuilt steamer	July	411

Cubore, discussion of American design of diesel engine installed on the freighter	Oct.	572
Cummings Ship Instrument Works, automatic ship's log developed by, description of	May	301
Cunard liner Scythia, description of the	July	403
Curves showing importance of various factors entering into ship operation costs	Jan.	12
Cutting sheet metal into strips, description of machine for	June	358

D

Danube shipyard company, organization of	July	413
Darden, procedure followed in successful launching of	Feb.	73
Davidson, T. W., description of clipper model made by	July	427
Davis-Bourneville Co., description of torch for cutting hand holes in steel plates developed by the	March	191
Davit, description of, designed to assure maximum amount of safety in launching lifeboats	Jan.	46
Dead reckoning, how to calculate a ship's course by	May	265
Decisions in maritime law	March	160
Decisions in maritime law	June	336
Decisions in maritime law	Aug.	466
Decisions in maritime law	Oct.	558
Decisions in maritime law	Dec.	648
Deck house was constructed in plate shop, how	April	244
Deckloads, revival of custom for paying insurance on	Jan.	17
Delawana, defeat of the, in international fishing smack race	Dec.	632
Deliveries of ships in October, list of	Dec.	639
Derrick type landing pole installed on steamer A. B. Wolvin, description of	Aug.	478
Destroyer, the Wivern, description of the	March	149
Diesel-electric drive, how successful trial trip of trawler proves practicability of	Jan.	5
Diesel engine design, outstanding features in the development of, in Europe	Feb.	71
Diesel engine, discussion of American design of	Oct.	572
Diesel engine, explanation of difference between 2 and 4-cycle	Dec.	641
Disasters, late flashes on marine	March	152
Disasters, late flashes on marine	April	226
Disasters, late flashes on marine	May	294
Disasters, late flashes on marine	June	331
Disasters, late flashes on marine	July	389
Disasters, late flashes on marine	Aug.	463
Disasters, late flashes on marine	Sept.	505
Disasters, late flashes on marine	Oct.	555
Disasters, late flashes on marine	Nov.	601
Disasters, late flashes on marine	Dec.	661
Disasters, list of, caused by foundering in lakes, 1900-1920	Dec.	633
Disasters, list of lake, 1909-1919	March	166
Disasters on Great Lakes in November storm	Jan.	23
Distance tables of Great Lakes, review of, issued by Lake Carriers' Association	April	217
Dock, description of iron ore, of Bethlehem-Chile iron mines	Jan.	22
Dock of the W. & A. Fletcher Co., description of motors on floating	Oct.	574
Dockyards, British, plans for using royal	May	252
Donald Steamship Co., description of fruit steamer Ormes built for the	Oct.	537
Dornfontein, how the, was rebuilt	March	157
Doullut & Williams Shipbuilding Co., how the steamer New Orleans built by the, made the trip across Lake Pontchartrain	Nov.	607
Downey Shipbuilding Corp., first ship built by, for private account since armistice, description of	March	140
Drafting room on U. S. S. Huron, how, facilitates repair work	March	186
Dreis & Krump Mfg. Co., description of plate bending machine built by the	Dec.	672
Drill for heavy work made by Barnes Drill Co., description of gang	April	248
Drill, radial with double column made by Niles-Bement-Pond Co., description of	Sept.	528
Drilling machine with heavy pattern head designed by the Sibley Machine Co., description of	Dec.	671
Drilling machine with planer type bed, description of	April	245
Drilling square holes, description of attachment for	April	245
Drydock at Boston, description of large	Oct.	571
Drydock at Puget Sound navy yard, dedication of	March	173
Drydock, description of, being built at Pensacola	Feb.	90
Drydock, description of, employing longitudinal truss method of construction	Dec.	669
Drydock, description of floating, bought by Union Iron Works	Dec.	653
Drydock, how the floating, of the Morse Dry Dock & Repair Co. made record in lifting the Minnesota	March	186
Drydock, plans of the Federal Shipbuilding Co. for construction of floating	Aug.	445
Duggan, W. T.—Concrete Floats Meet Hard Test	Feb.	89
Dunn & Elliott Co., description of wooden barkentine built by the	Feb.	75
Dunn, Harry H.—Shipbuilding in the South	Feb.	63
Duthie, J. F. & Co., description of new steel carriers built by	Oct.	560
Dynamic balancing machine, description of, developed by Crawford Tool & Mfg. Co.	Jan.	41

E

Easton, William H.—How Floating Frame Gears Work	Jan.	38
Easton, William H.—Yacht Has Gas-electric Drive	March	145
Eclipse, description of first electric-driven freighter	Nov.	583
Edmunds, Representative, introduction of bill by, to legalize American bureau of shipping	Jan.	26
Education of Americans in marine field, why John Barton Payne favors	Jan.	25
Electric Boat Co., description of submarine built by the	July	413
Electric Controller & Mfg. Co., description of starting switch developed by the	Jan.	45
Electrically driven freighter Eclipse, description of	Nov.	583
Elfay, description of gas-electric drive equipment of yacht	March	145
Emergency Fleet Corporation, description of accommodations on passenger ships built by the	Aug.	447
Emergency Fleet Corporation, list of steel ships delivered to, by American yards in 1919	Feb.	103
Emergency Fleet Corporation, list of wooden ships delivered to, by American yards in 1919	March	174
Emergency Fleet Corporation, status of shipbuilding program of the	Aug.	445
Encore, suit against German government for loss of schooner	Jan.	43
Engine, diesel, explanation of difference between 2 and 4-cycle	Dec.	641

Engine, is a turbine an	Dec.	634
Engine, steering, developed by American Clay Machinery Co., description of	May	302
Engines, development of variety of types of diesel in Europe	Feb.	71
Engines, internal combustion, plans for revising classification rules for inspection of	July	424
Engines with different types of valve gears, result of comparative tests made on	March	138
England, Capt. R. W., as new district manager, Great Lakes district of Emergency Fleet Corporation	Jan.	11
English (See Great Britain)		
Eperanto, victory of the, in international fishing smack race	Dec.	632
Estep, H. Cole—German Shipping Hard Aground	June	311
Ex-meridian observation, how to determine latitude by	Oct.	549
Export trade terms, definitions of	April	201
Exposition, how the New York national marine will prove the importance of a merchant marine	May	255
Exposition, New York national marine, enlarged plans for	March	161
Exposition, plans for marine, at Philadelphia	Dec.	527
